## SUMMARY

- Resourceful technologist who drives delivery by deeply understanding the business landscape, aligning cross-functional teams, and planning quantifiable success metrics, ensuring rapid-and-secure execution whether through hands-on development or guiding high-performing teams to scale enterprise cloud and security initiatives from day one to successful adoption.

## HIGHLIGHTS

- **Portfolio Scale:** Managed 20+ enterprise initiatives (ranging from \$10K - \$50M) across federal, healthcare, and philanthropic sectors
- **Strategic Turnarounds:** Built cohesive teams to recover high-risk, politically sensitive projects, enforcing financial discipline and optimizing program financial models
- **Technical Leadership:** Directed secure cloud deployments and enterprise security transformations using Agile, Waterfall, and Hybrid frameworks

## COMPETENCIES

- **Management & Standards:** Agile, Waterfall, Hybrid, SDLC, ITIL, NIST, SOC 1/2, ZTA
  - **Apps & Tech:** AWS, Smartsheet/Jira, ServiceNow, M365, ChatGPT, Splunk, Co-Pilot, Python
  - **Systems Eng:** Requirements, Architecture, Implementation, Test, Model-Based, Evaluation
- 

## PROFESSIONAL IMPACT

### [Infinite Computer Systems](#)

#### Technical Project Manager

*Remote – January 2026 to Present*

- Managed the implementation of an omni-channel call center platform for the District of Columbia (DC) Department of Health Care Finance (DHCF), integrating complex data streams to reduce recipient call times
- Directed enterprise security delivery for Missouri Department of Social Services (DSS) Provider and Pharmacy portals, navigating Centers for Medicare & Medicaid Services (CMS) federal audits and drafting System Security Plans (SSP)
- Delivered a \$1M enterprise Privileged Access Management (PAM) program for corporate Gainwell Technologies, replacing legacy Saviynt with CyberArk

### [Gainwell Technologies](#)

#### Technical Project Manager

*Remote – March 2024 to January 2026*

- Stabilized and recovered a high-visibility \$5M+ data warehouse modernization for Kansas Department of Health and Environment (KDHE) by realigning scope, resolving stakeholder conflict, and restoring executive confidence
- Led MFA implementation for Health First Colorado and Nevada Medicaid agencies, ensuring alignment with strict healthcare security regulations and mitigating access risks
- Leveraged AI (Microsoft Copilot) to build dynamic governance workbooks, standardizing processes that empowered the Enterprise PMO and reduce administrative overhead

## [Booz Allen Hamilton](#)

### Program Management Analyst

*Remote – May 2022 to March 2024*

- Optimized a ~\$100M Department of Homeland Security (DHS) Cybersecurity and Infrastructure Security Agency (CISA) portfolio by standardizing processes across the CDM DEFEND program, enabling PMs to scale Zero Trust across 100+ federal networks
- Built enterprise cloud architecture diagrams from scratch for the Department of Defense (DoD), giving leadership clear visuals to strategize, mitigate risks, and accelerate enterprise decisions
- Navigated complex federal contracts by maintaining demanding 72-hour risk notification SLAs, managing enterprise vulnerabilities, and consistently achieving "Excellent" (4/4) quality metrics

## [Wellspring Philanthropic Fund](#)

### Information Systems Analyst

*Washington, DC – December 2019 to May 2022*

- Strengthened organizational security by aligning protocols with NIST and CIS standards, deploying foundation-wide InfoSec training, and enforcing strict data governance policies
- Managed end-to-end technology lifecycles—from writing strategic business cases and evaluating vendor Service Level Agreements (SLAs) to safely decommission legacy systems
- Founded the Knowledge Management Committee, optimizing the digital workplace to boost transparency, streamline workflows, and strengthen the foundation's learning

### Information Technology Associate

*Washington, DC – November 2016 to December 2019*

- Directed full-lifecycle infrastructure projects for the DC office by managing third-party contractors, leading cross-functional committees, and modernizing technical workflows
- Brought cross-functional teams together by facilitating strategic workshops, driving enterprise technology initiatives, and coaching IT staff to level up their technical capabilities.
- Enabled data-driven leadership decisions by developing custom portfolio tools, designing operational dashboards, and delivering real-time project status summaries

---

## **EDUCATION**

[MS, Systems Engineering](#) (ABET Accredited) | Johns Hopkins University | Washington, DC | Dec 2021

[BS, Integrated Information Technology](#) (ABET Accredited) | University of South Carolina | Columbia, SC | May 2016

[Project Management Professional \(PMP\)](#) | Project Management Institute | Oct 2022 – Oct 2028

[Facilitative Leadership for Social Change](#) | Interaction Institute for Social Change | Feb 2020
